

# CANCEL MIRAMAR AIR SHOW

## Military Role in Greenhouse Gas Emissions and Climate Concerns Compel 14 Community, Climate, Faith, and Peace Groups to Oppose Miramar Air Show

**Peace Resource Center of San Diego**

...working for peace, social justice, and the environment since 1980.

With unprecedented drought, wildfires and record temperatures, we are all facing the severe effects of climate change. The Pentagon is the world's single largest institutional consumer of fossil fuels and the single largest institutional emitter of greenhouse gases. The Miramar Air Show is an unneeded waste of fuel and gross emitter of pollution done for **ENTERTAINMENT**. We call on the US Navy to cancel the Miramar Air Show as a recognition that the military **MUST** commit to climate mitigation and become better neighbors with **all** residents of San Diego. **This can be done with no effect upon the military's operational readiness.** The above organizations endorse this action.

Join us at the I-15 North overpass at Carroll Canyon Road to banner on **September 13, 15, 20 and 22 from 4 PM – 6 PM**, with additional details to follow. Contact Dave Patterson to participate: [dpatterson998@yahoo.com](mailto:dpatterson998@yahoo.com)
